Helmeted Honeyeater Heroes – Threats and Solutions

Find the solutions to these threats and draw or write them in the spaces provided.

Small number of Honeyeaters.	Land is cleared for houses or farms.	There is not enough food to eat.	Trees get old and die.
Solution:	Solution:	Solution:	Solution:

This project is supported by the Port Phillip and Western Port CMA, through funding from the Australian Government's National Landcare Program.
