

The Helmeted Honeyeater

Song

E 1 : 1

When a bird becomes endangered
Its friends must rally round
And find a way of keeping
Its habitat all 'round.

Chorus:
Think globally!
Act locally!
And you'll be sure to see
A change in your environment
For the benefit of you and me

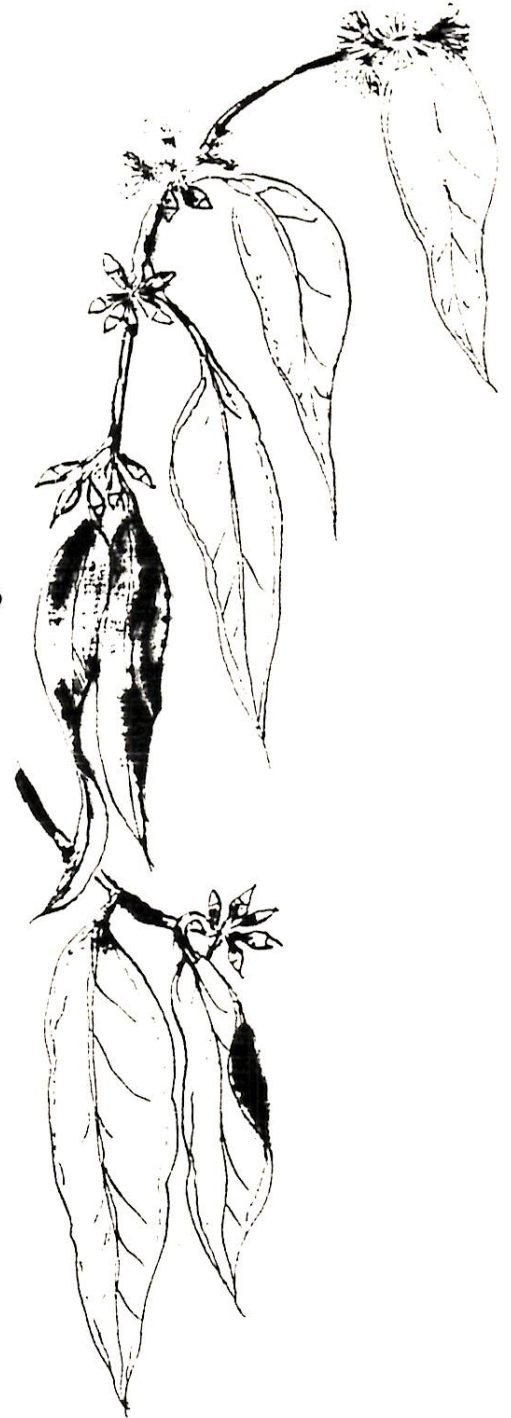

There's a bird that's found in Yellingbo
Bright yellow is its crown
And its feathers match the greenery
Its nest is lined with down...

Chorus:
Think globally!
Act locally!
And you'll be sure to see
A change in your environment
For the benefit of you and me.

If you want to save this species
And many more as well
We will have to do some thinking
About the things we grow.

Chorus:
Think globally!
Act locally!
And you'll be sure to see
A change in your environment
For the benefit of you and me. (repeat last chorus)

Song

E1:1 Music

HELMETED HONEYEATER SONG

VERSE:

When a bird becomes en-dangered Its friends must rally round And
 find a way of keeping its habitat all 'round

CHORUS:

Think globally! Act locally! And you'll be sure to
 see A change in your environment for the benefit of you and me
 just time for the benefit of you and me

There's a bird that's found in Yellingbo
 Bright yellow is its crown
 And its feathers match the greenery
 Its nest is lined with down

CHORUS

If you want to save this species
 And many more as well
 Then we'll have to do some thinking
 About the things we grow

CHORUS
